

## Industry's

Iongest distance
rotary sprinkler specifically designed for parks, sports
fields, and
public areas

With a radius up to 96 feet from a single sprinkler, the I-90 boasts a coverage area no other commercial sprinkler can deliver. Yet, its reduced-size diameter and cushioned rubber cover make it the perfect choice for parks and wide-open lawn areas, as well as perimeter watering of athletic fields and horse arenas. The rotor is also easy to service, with a "jar-top"
body cap that allows quick access to the filter screen and check valve with no extra pieces, parts, or tools required. The l-90 is offered in two models-a full-circle opposingnozzle version or an adjustable arc model-each with color-coded nozzles that can be field-changed to match the specific needs of your site.

Extra-thick heavy-duty rubber cover
Helps keep playing surfaces safe
6 color-coded primary nozzles
Truly uniform coverage and fast identification
Jar-Top serviceability
Easy access to screen, gear drive, and valve assemblies
Closed case rotor
Absolute protection from dirt
Proven, heavy-duty gear drive
Enduring reliability
Water activated riser seal
Clean flushing action and positive retraction
Heavy duty stainless steel spring
Assures positive retraction, time after time

Drain check valve to handle elevation change
Saves water, reduces liability

## Models

I-90 36V - Full circle
I-90 ADV - Adjustable arc ( $40^{\circ}-360^{\circ}$ )

## Dimensions

- Pop-up height: $3^{\prime \prime}(7.6 \mathrm{~cm})$
- Female inlet: $1 \frac{1}{2} 2^{\prime \prime}$ NPT or BSP
- Exposed diameter: $31 / 2^{\prime \prime}(8.9 \mathrm{~cm})$
- Overall height: 11 " $(28 \mathrm{~cm})$

## Operating Specifications

## I-90 36V

- Discharge rate: 29.8 to 69.4 GPM ( 6.77 to $15.76 \mathrm{~m}^{3} / \mathrm{hr}, 113$ to $263 \mathrm{l} / \mathrm{min}$ )
- Radius: 71' to 96' (21 to 29.3 m)
- Recommended pressure range: 70 to 90 PSI ( 4.8 to 6.2 bars; 482 to 620 kPa )
- Operating pressure range: 50 to 100 PSI ( 3.4 to 6.9 bars; 344 to 689 kPa )

## I-90 ADV

- Discharge rate: 30.7 to 69.8 GPM ( 6.97 to $15.85 \mathrm{~m}^{3} / \mathrm{hr}, 116$ to $264 \mathrm{l} / \mathrm{min}$ )
- Radius: 67' to $90^{\prime}$ (20.4 to 27.4 m )
- Recommended pressure range: 70 to 90 PSI ( 4.8 to 6.2 bars; 482 to 620 kPa )
- Operating pressure range: 50 to 100 PS ( 3.4 to 6.9 bars; 344 to 689 kPa )

## Options Available

- Reclaimed water identification
- Factory-installed nozzles
- Turf Cup Kit (part \# 467955)

## The Ideal Choice for Parks and Large Spaces

If you're looking for the smallest number of sprinklers to cover the greatest amount of turf, the I-90 is the choice. For sports fields that feature a substantial amount of turf-such as those for soccer, football or lacrosse-the I-90 gives you the ability to place just a few rotors in place and receive complete coverage from perimeter areas. After all, the I-90 is designed to effectively irrigate turf areas that require a sprinkler that distributes water well in excess of 90 feet. Plus, its small exposed surface and rubber cover make it the safe choice as well.

| I-90-36V Nozzle Performance Data |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |

| Black** | 100 | $96{ }^{\prime}$ | 69.4 | 0.72 | 0.84 |

Note: To ensure optimum nozzle performance, the rotor should be operated in the "Recommended pressure range". The sprinkler will work normally when used in the "Operating pressure range", but nozzle performance may be reduced.

Data represents test results in zero wind. Adjust for local conditions. Performance data are derived
from tests that conform to ASAE Standard
3398.1. See Hunter Irrigation Products Catalog for complete ASAE Certification Statement.
